

ergo**FIX**

Preventative & Corrective
Posture Seating

ergo**FIX**

Ergonomically designed,
anatomically correct.

Working in partnership with ergonomic specialists, physiotherapists and DSE assessors, ErgoFix is the definitive ergonomic office seating collection, value engineered to provide positive, preventative and corrective solutions to posture issues at home and in the workplace.

ergo**FIX** recognises the necessity for superior, variable and flexible support.

This in turn leads to a healthier, happier and more productive working environment.

“Musculoskeletal (MSK) conditions are the **biggest cause of working days lost in the UK** after coughs and colds.”

Public Health England June 2019

MSK Conditions affect the joints, bones, muscles and also include rarer auto-immune diseases and back pain.

MSK conditions affect over 14.9 million people nationally many of whom have symptoms of pain, stiffness, limited movement and disability affecting their quality of life and independence.

Public Health England June 2019

The NHS alone spend over £5 billion annually in treating and supporting people with MSK conditions.

Public Health England June 2019

In 2017, MSK conditions were the biggest cause of sickness absence

which accounted for over 28 million days lost in work (22.4% of total sickness absence). This cost the UK an estimated £7 billion a year.

Public Health England June 2019

Musculoskeletal conditions are commonly linked with depression and increase the risk of developing other chronic conditions.

ergo**FIX**

Protecting natural resources.

Preventing pollution. Reducing waste.

“ We strive towards continual improvement in our environmental performance and endeavour to minimise the scale of our adverse impact on the environment by setting, implementing, monitoring and reviewing environmentally conscious operational objectives and targets ”

Recognising the long-term benefits to our business and our customers we are committed to taking an active part in protecting natural resources, preventing pollution and reducing waste.

QR Code Scanning

Adding QR Codes which allow users to access operating and assembly instructions has resulted in a reduction of printed sheets of paper, totalling approximately 50,000 less printed sheets per year!

Continual Improvement

We continually strive for environmental excellence, changing and creating processes to help us lower our carbon footprint. We are delighted to say that our BSI ISO:14001 accreditation has been successfully renewed.

Glue-less Technology

We have developed and enhanced our manufacturing techniques, enabling us to build our upholstered swivel chair backs with an E-badge, resulting in the product becoming totally glue-less.

Component Breakdown

We only use the highest quality components when building our products. The chairs featured in this presentation are constructed from:

44%

Steel

19%

Polypropylene

14%

Aluminium Castings

13%

Plywood

6%

PU Foam

2%

2%

Nylon

The chairs featured in this presentation contain up to

37%

Recycled Material

21% Steel

14% Aluminium Castings

2% Fabric

The chairs featured in this presentation are up to

99%

Recyclable

ergoFIXIntro

Back To Basics.

The ergoFIXIntro range consists of four ergonomic models that offer an affordable solution to posture seating for petite, regular and larger users.

The ergoFIXIntro range is all centred on the same volume specified, heavy duty 3-lever mechanism.

Infinitely lockable and highly adjustable, this robust mechanism comfortably supports users of up to 150KG and the range now comes with a seat slide as standard.

A choice of backrests including inflatable lumbar supports allow you to select the optimum fit for the size and shape of a specific user.

Optional extras can then be added, tailoring the chair to suit.

Seat Angle

Seat Depth

Lumbar Support

Arm Adjustment

1. Headrest (HR)

Available on selected models, the addition of a height and angle adjustable headrest supports the user in reclined positions, relieving stress within the neck muscles.

5. Air-Flo Seat Cell (ASC)

A dual chamber air cell below the seat surface offers a "reactive sit" whilst providing cushioning to the sit bones, helping to improve core strength and reduce Sciatic pain.

Height
Adjustable Arms (AA1D)

2. Inflatable Thoracic Support (ITC)

Increases the contact area of the upper spine by filling the space between the shoulder blades, helping to prevent slouching and reduce pain/discomfort in the shoulder and neck area.

6. Performance Seat

Pressure sensitive to mould to the user's seated position, enhancing comfort and support throughout the working day. Also known as the memory foam.

Height and Depth
Adjustable Arms (AA2D)

3. Inflatable Lumbar Support

Increases the contact area of the lower back, giving additional support to the lumbar area and supporting the natural curvature of the spine whilst preventing fatigue and lower back pain.

7. Seat Slide Foam (PF)

Allows the user to increase the seat depth in order to optimise comfort and support and reduce the amount of pressure transferred to the legs.

Height and Foldaway
Adjustable Arms (AF)

4. Coccyx Zone (CC)

A cut out / soft pocket located at the back of the cushion which provides a discrete solution to coccyx pain and provides pressure relief to the tail bone area caused by trauma or scarring.

8. Polished Base (AB)

As well as increasing the aesthetic appeal of the range, a polished base is also recommended for seating users who are in excess of 115kg.

Multi-Functional
Adjustable Arms (AMF)

ergoFIXMe

The One-Chair-Fits-All Solution.

With an incredible range of back height and seat depth adjustments, ergoFIXMe is the ideal project solution for clients who wish to ergonomically seat numerous bodies in the same style chair.

ergoFIXMe provides adjustments that adapt the chair to suit users of all sizes, by utilizing a twin seat slide system, ratchet back height adjustment and a choice of multi-functional arms.

The versatility of the range is further enhanced by a choice of three backrests.

ergoFIXMe reduces the need for replacement chairs and provides a one-stop chair solution for Facility Managers.

/PF	Performance foam seat
/ASC	Air-Flo seat cell - for pressure sensitive movement
/CC	Coccyx zone
/AB	Polished base

Unique in its design,

The only chair with a backrest that is positioned on the rear of the seat in its smallest configuration, designed to support petite users. Lift the backrest for an additional 80mm of height and extend the seat by 125mm using the twin seat slide to fit the chair to the widest range of users.

ergoFIXSolo

At one with ergonomics.

The ergoFIXSolo range is a unique and modern solution to everyday ergonomics that redefines comfort, support and adjustability.

Taking inspiration from the movement of the body, the unique ergoFIXSolo back was sculpted with sleek lines and sumptuous curves to mould to the shape of the spine and reinforce positive posture.

Long bouts of sitting can cause significant spinal issues over time, speeding up the wear and tear process of your spinal discs as well as increasing the risk of daily back and neck pain.

Approved and endorsed by a certified Physiotherapist, the ergoFIXSolo range exceeds this criteria and offers support to the spine where it needs it most.

Adaptable seating is becoming more important within the home and office environment

Chairs with complex controls can be difficult to adjust, meaning we rarely get the best support possible.

ergo**FIX**Neon solves this problem.

Simplistic controls located on one side of the mechanism make this chair easy to use and simple to adapt, ensuring quick adjustment to suit a wide range of body types.

The body responsive mechanism has been developed to put the user in full control of their chair, enabling them to work in a dynamic free float mode or lock the chair into a position that is comfortable for them.

ergo**FIX**Accessories

Enhancing ergonomics.

ergo**FIX**Accessories are a simple range of complementary ergonomic products.

They are designed to offer new thinking towards back health, personalised and enhanced user support and comfort levels.

Our NEW **Sit-Stand Stools** are ideal for the rapidly growing market of height adjustable desking. Whether it be in home or office settings, their compact design and simple adjustability adds a new dimension for consideration.

Our external support cushions for both seats and backrests are based on our popular reactive air-cells, already successfully used within our chair ranges and now even more adaptable.

Our adjustable leg rests are brochure included as a result of increased popularity, a simple and adjustable enhancement for specific user support.

● Mobilising Comfort

Using a retro-fitted Ergo Seat Cushion and / or Ergo Lumbar Support enables you to quickly and easily make your car seat, home and work office chair more comfortable.

Simple to adjust and easy to transport for inflatable support on the move.

● Elevation and Support

Perfect for injury recovery and to help manage physical limitations.

Our Leg Rests are height and angle adjustable and will comfortably support one or both legs at your preferred height.

Helping to achieve comfortable alignment with your hips and knees which in turn decreases pressure on the spine and reduces fatigue.

Guarantee

For 8 hour per day use all models carry a full five-year structural guarantee with two years on moving parts and upholstery.

For 24 hour per day use a two-year structural guarantee applies.

These guarantees exclude unfair wear and tear and damage or failure caused by misuse.

All gas lifts are suitable for users up to 150 kg.

Specification

We have taken great care to ensure that all details, descriptions, measurements and prices in this Product Guide are correct. In order to give you the most accurate representation of our products, we have used colour swatches that have been provided directly from our fabric suppliers. Although every care has been taken to ensure that dimensions are accurate, manufacturing characteristics may vary slightly.

We reserve the right to make any reasonable changes to specification or design as part of our continual improvement policy.
