HIDE

Features

Made in the EU

We manufacture all our Hide Booths in Europe, ensuring accessibility at a competitive price without compromising on quality.

Stocked for express delivery

Did you know our Hide Phone Booth Dark and Light versions are available for express delivery.

Perfect Sound Insulation

Multilayer walls filled with an acoustic sponge and covered with felt provide excellent noise insulation at the level of 36 db for a single booth.

Options

Hide booths come in a range of felt colours and options making it easy to match your pod with your current office interior.

Intelligent Booth

The ventilation and lighting systems in our booths are equipped with automatic sensors that turn on when a person enters and turn off when they leave, ensuring a hassle-free experience.

Equipment

All of our Hide Booths are equipped with handy power sockets and USB sockets – making it easy to charge your laptop or mobile.

Easy Assembly

Our booths are modular, making them incredibly easy to assemble. You can do it yourself or use our support. Moving the booth doesn't require disassembly.

Dimensions

The compact external dimensions of our booth and relatively thin walls make it suitable for any office environment while providing a spacious interior for the user.

H1 Phone Booth

A comfortable, modular phone booth for one person. It doesn't take up much space and fits into any office interior. It provides ideal conditions for making phone calls or teleconferences. A comfortable, modular phone booth for one person.

Key Features:

4 x silent fans with a total air flow, automatically activated by a motion detector & adjustable
Handy shelf mounted at a height of 110 cm, made of high quality birch plywood
LED lighting switched on automatically on motion detector;
Doors made of tempered glass with a trouble-free magnetic door closing, handle made of ash wood;
1 x power socket 230 V + 2 x USB sockets.

Dark and Light versions are both stocked for express delivery
